# HM600M HYDROMULCHER

## WHY BUY?

**Stainless steel tank – greater corrosion resistance.**

**Oval tank – greater rigidity reduces vibrations, helps eliminate weld seam stress and makes the tank easier to clean.**

**Stainless steel fittings – greater corrosion resistance.**

**Stronger grade steel than competitive models – greater durability.**

**Discharge velocity exceeds all competitive models in its class.**

**Powder coat paint – greater corrosion resistance than liquid paint.**

**Slot & groove joinery plus full welds – greater manufacturing precision & durability.**

**Fuel tank capacity 80% greater than competition – greater operator productivity.**

**The fuel tank is fully enclosed in the metal frame for greater safety.**

**Manufactured in a high-precision military supplier facility.**

PLEASE CALL GRUN OR YOUR LOCAL DEALER FOR MORE INFORMATION, OR VISIT OUR WEBSITE.

# HM600M HYDROMULCHER PRODUCT OVERVIEW

## GRUN HM600M - TECHNICAL SPECIFICATIONS (TRAILER MODEL)

Agitation .....	Mechanical paddle agitation with liquid recirculation
Battery .....	12 v
Brakes.....	Electric standard, hydraulic surge optional
Coverage per tank load .....	8,000 sq ft (743 sq meters)
Discharge distance (hose) .....	90' (27 meters)
Engine.....	Kohler 27hp
Engine safety system .....	Low oil pressure shut off
Fuel tank capacity .....	18 gallons (68 liters)
Height .....	138" (3505 mm)
Hose .....	50' length of 1 1/4" semi-rigid 250psi rubber hose with quick disconnect nozzles
Hose reel .....	Electric power rewind
Length .....	160" (4064 mm)
Loading platform.....	Standard
Maximum material capacity .....	220-250 lbs. (100-113 kg.)
Nozzles .....	1 long distance, 1 large fan, 1 small fan
Pump .....	4" centrifugal
Pump drive .....	Direct drive through electric clutch
Recirculation port .....	Standard
Tank .....	600 gallon (2271 liters) stainless steel tank
Weight - empty.....	4,500 lbs (2041 kg)
Weight - loaded .....	9,500 lbs (4,309 kg)
Width .....	96" (2438 mm)
Tire Size .....	235R-85-16, Load Range E
